Professional Experience

Since 10/2025	Career Transition – Product Management & Digital Product Development Career Reorientation • Deliberate professional transition focused on deepening product management expertise and building hands-on experience with modern web and AI-driven product development. • End-to-end product ownership of ClearControl.de: conceived, designed, and shipped a live web application solving a real user problem in smart home automation — from user research and UX design to technical implementation. • Independent study of browser platform capabilities, AI/ML-driven features (autofill, prediction systems), and product frameworks including OKR-based roadmapping and data-driven decision-making.
03/2025 09/2025	Senior Software Consultant DMS akdb.digitalfabriX GmbH, Munich · Employee • Project management for DMS implementation • Requirements analysis & process consulting • Customer training & workshops • System configuration & authorization concepts • Release and update management
10/2022 12/2024	Consultant for Quality Management, Controlling, and Central Steering Support Bayerische Verwaltungsschule (BVS), Munich · Employee • Drove improvements to organization-wide controlling systems, including KPI development and management reporting frameworks. • Redesigned the evaluation system with automation, measurably increasing feedback process efficiency and reducing manual effort. • Defined requirements, developed, and delivered training programs for digital tools (Confluence, MS Office, evasys), improving adoption across staff. • Translated complex organizational needs into actionable product requirements across multiple cross-functional stakeholder groups.
09/2013 09/2022	Project Manager and Product Manager Munich University of Applied Sciences (HM), Munich · Employee • Defined product vision and roadmap for a DMS (d.velop d3) to digitize application and administrative processes; owned the full product lifecycle from business case through engineering collaboration, piloting, and organization-wide rollout. • Drove measurable impact at scale: redesigned document-centric workflows across 14 faculties handling >200,000 documents/year, reducing processing and form submission time by ~30 % through targeted UX improvements and automation. • Managed cross-functional alignment across engineering, legal, and 14 faculty administrations; ensured compliance through audit-proof archiving and integration of adjacent specialized systems. • Defined KPI frameworks and built management dashboards for transparency; maximized user adoption through structured training programs and continuous feedback loops.
03/2008 12/2008	weku münchen Hebertshausen · Self-employed Salesman
05/2004 06/2008	Consultant and Seller Vorwerk Deutschland Stiftung & Co. KG, Munich · Self-employed Salesman

05/2003	Trainee Branch Manager / Deputy	
07/2004	LIDL Vertriebs GmbH & Co. KG, Munich · Employee
